

CONSTRUCTION OF THE PEDESTRIAN AND BICYCLE BRIDGE AARSCHOT

29-06-2010

Construction of the pedestrian and bicycle bridge for the trainstation of Aarschot has begun. Mayor Peeters, Deputy Dekeyser and Swinnen gave the official launch.

The new bridge will enhance the bicycle network and the accessibility of the platforms. It also connects the city center with housing and work areas on the other side of the station on a proper way.

In 2008 West 8 was selected for the design of the bridge over the railways of Aarschot.
