

SUMMER OF JOY AT GOVERNORS ISLAND

29-06-2017

When we designed the park and public space of Governors Island we could only dream that within such short time the island would bring together so many people to play, laugh, discover, love, and relax. This summer Governors Island presents a programme of joyful activities. Swim, run, watch wild birds, celebrate the full moon, write poems, eat or have a go at New York's longest slide. But most of all: enjoy!

Click [here](#) to see the full programme.

We are honored that Governors Island already won four awards this year. Read about our [Architizer A+ Award](#) and our [MASTerworks Award](#).
