

WEST 8 TO SPEAK AT “WOHNEN MORGEN”, AUSTRIA

14-02-2012

"Wohnen Morgen", or "Living Tomorrow" is a lecture series on the future of living by aut. Architektur und Tirol, a regional house for architecture in Innsbruck. It started off with a symposium last November and is followed by several guest-speakers, thus hoping to inspire the Wohnbau (Housing) to incorporate other approaches. West 8 has been invited to talk about the future of living. As representative, our urban designer Christoph Elsässer will give a lecture on the 19th of April.

More information can be found at their website: www.aut.cc.
