

WEST 8'S ADRIAAN GEUZE TO LECTURE AT ARCHITECTUURCENTRUM EINDHOVEN

11-06-2018

For the past 10 years, West 8 and Adriaan Geuze have been working intensively on several urban development projects in Eindhoven. We are mostly known for our work at [Strijp S](#), but there are more West 8 projects going on in the Dutch high-tech city.

Monday 11 June Geuze wil present about these and other topics at Architectuurcentrum Eindhoven.

After the lecture, a discussion will be held with the audience about the urban dynamics of Eindhoven, architecture and spatial quality.

The meeting takes place at 8 pm in Natlab and is free to visit, but it is advised to reserve a free ticket in advance. More information: click [here](#).
